

# 4年生 わり算の筆算⑧ ペラペラヒントカード4

ねらい わり算の筆算の方法を理解して、計算をすることができる

## ④おろす

A long division problem is shown. The divisor is 3, and the dividend is 72. A horizontal line is drawn above the 72. A box is placed above the line. Below the line, the number 72 is written. A box is placed below the 7. A dashed arrow points down from the 2 to the next step. Below the 72, there are two boxes, one under the 7 and one under the 2. An arrow points from a text box to the box under the 7. Another arrow points from a text box to the box under the 2.

7 - 6 = 1 だね
